Are informed consent forms signed? Do these signed forms list all known risks for the resident?</p> <p>All needed informed consent statements are present and properly signed.</p>	<p>Unless there is documentation that the resident's medical condition should not be discussed with him/her resident interviews/record reviews should indicate that the resident and physician have discussed his/her medical condition.*</p> <p>If you cannot confirm that this has occurred, interview staff to get further clarification.</p> <p>Almost all residents who are able to participate to some extent in their care planning do so. You should find evidence of this for the majority of the residents (e.g., care planning interview, nurses notes, social worker progress notes).</p> <p>Residents do have the right to refuse medication or other treatment, but you would expect that the facility would discuss the implications of this refusal with the resident and possibly do some "gentle persuasion".*</p>	<p>Patient Care Management</p> <p>405.1124(d)</p> <p>442.319</p> <p>442.341</p>
