

LONG TERM CARE SURVEY

SURVEY AREA	OBSERVATION	INTERVIEWING	RECORD REVIEW	EVALUATION FACTORS	CROSS REFERENCE
<p>F245</p> <p>4. Equipment is maintained in good working order.</p>	<p>Is lighting adequate throughout the facility for activities in which residents are engaged?</p> <p>Do men and women have activities of interest to them?</p> <p>Do residents communicate with each other in activities?</p>	<p>Ask Nursing/Activity Staff</p> <ul style="list-style-type: none"> - Do they know the interests of residents under their care? TV programs they like? Activities they want to participate in today/this week? - Do they know the personal equipment needed (e.g., glasses, hearing aids, teacher)? - Do they know the adaptive equipment used by residents for specific activities (e.g., talking books, built up tools)? - Do they talk to residents to identify new interests and report these and "dislikes" to activities personnel? How? - What is staff's involvement with individual and group activities of residents in their care? - How do they determine interests of residents who have difficulty communicating? - What activities does resident participate in regularly? Which activities does he/she enjoy most/least? 	<p>Activities notes spell out implementation of plan, resident's reactions to specific activities, approaches, and people.</p> <p>Residents' participation in individual and group self-started and organized structured and unstructured activities timespent.</p> <p>Evaluation of plan of care for: changes in interests; changes in precautions, changes in needs, new problems, approaches, etc.</p> <p>Plans are revised as needed.</p>	<p>Are equipment and supplies to meet residents interests available and maintained in good working order?</p> <p>Are residents evaluated periodically with emphasis on participation levels and desire for new activities?</p> <p>Are plans readjusted if they do not reach desired outcomes?</p> <p>Residents in the facility more than 60 days should have at least two activities per week of interest to them personally.</p>	
<p>F246</p> <p>5. Supplies and equipment for activities of interest are available.</p> <p><u>INIENI</u></p> <p>Each resident has individual and/or group activities to meet activities through his interests daily.</p>	<p>Are methods of communicating upcoming activities appropriate to the resident populations?</p> <p><u>Specific observation for physically impaired/alert residents:</u></p> <p>Activities adapted to meet specific needs of the resident.</p> <p>Alert residents have activities of interest and at their cognitive functional level.</p> <p><u>Specific observations for confused/disoriented, emotionally disturbed and mentally retarded residents:</u></p> <p>There are current calendars, clocks and patients</p>
